SALTA JUNIOR

www.saltatrampolines.com

Salta - Junior Trampoline

The Salta Junior Trampoline is specially designed for toddlers and children. In this day and age, having kids practice on trampolines will help them to develop motor skills and better balance. Guaranteed hours of fun, because jumping on the Salta Junior Trampoline is of course one great adventure!

The trampoline's mat and the soft fine safety net mesh are integrated, which is making this trampoline extremely safe! The suspension of the trampoline is developed in such a way, that jumping is optimal and comfortable for the target group. Due to the elastic suspension, jumping is noiseless and also not stressful for the back and joints. As the entrance is only 36cm high, your child can easily step in by using the spacious opening and the double-sided zipper.

The steel is made out of galvanized frames with a matt black coating surrounded with foam and a safety pad for extra protection. It's easy to move the trampoline around, it doesn't take much space and fits in almost every room. The Salta Junior Trampoline is suitable for both indoor and outdoor use.

COMFORT EDITION

www.saltatrampolines.com

Salta - Comfort Edition

The Salta Comfort Edition is an exceptional trampoline and unsurpassed in its attractive price range. The beautiful design of this trampoline fits seamlessly into any surroundings, and has been developed according to the latest strict standards. Therefore, it's extremely safe. The steel frames of the durable Salta Comfort Edition are galvanized and provided with a black glossy coating.

The construction of the steel top ring keeps the safety net in its elegant shaped position and therefore the soft and fine mesh stays attractively tight. In addition, the trampoline has a 20mm thick and 29cm wide protective safety pad, so the double galvanized conical springs are completely shielded. The double-sided zipper provides smooth access to the trampoline, allowing you to easily enter and close the Salta Comfort Edition.

The Salta Comfort Edition offers a unique jumping experience and years of jumping fun!

Salta

TRAMPOLINES

FIRST CLASS

www.saltatrampolines.com

Salta - First Class

Experience unprecedented fun with the Salta First Class trampoline. This extremely luxe trampoline offers a quality of first class! For this superior trampoline, only the best, strongest and safest materials are used. Therefore, this First Class trampoline offers the ultimate quality!

The First Class trampolines are all equipped with a unique, extra thick galvanized black powder-coated frame, which guarantees the most solid and strong frame construction. The beautiful safety pad has a very luxurious appearance due to the extremely thick (0.76 mm) coated PVC material.

The upper frames are built with a square attachment at the bottom of the frame, using fixed screw connections. This results in a stable and solid connection. During the jumping, the frame cannot move around and therefore is exceptionally quiet.

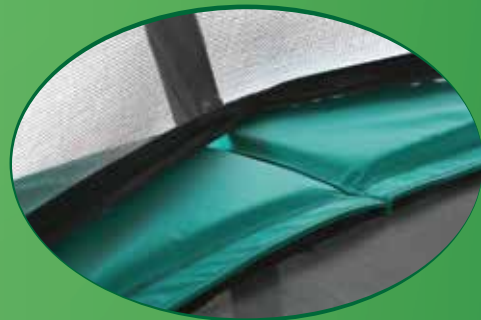

Salta

TRAMPOLINES

Salta - First Class

The Salta First Class offers a significant amount of double conical, gold-colored springs. The springs are galvanized and extra-strong. With a length of 210 mm, they offer the best comfort to jump higher and land softer. Hereby, the Salta First Class offers the ultimate jumping experience!

The Salta First Class has a very wide safety pad of 37cm wide. In addition, the thickness of the safety pad is 32 mm and it's UV- and weather-resistant. The safety pad is secured to the frame of the trampoline mat to prevent jumpers coming into contact with the springs!

The safety net is made of durable and strong UV-resistant material. Due to the high density of the safety net, it feels very comfortable, in case you collide with the safety net.

The poles of the safety net are surrounded by an additional thick layer of foam, for extra safety. The Salta First Class trampolines are all equipped with a ladder.

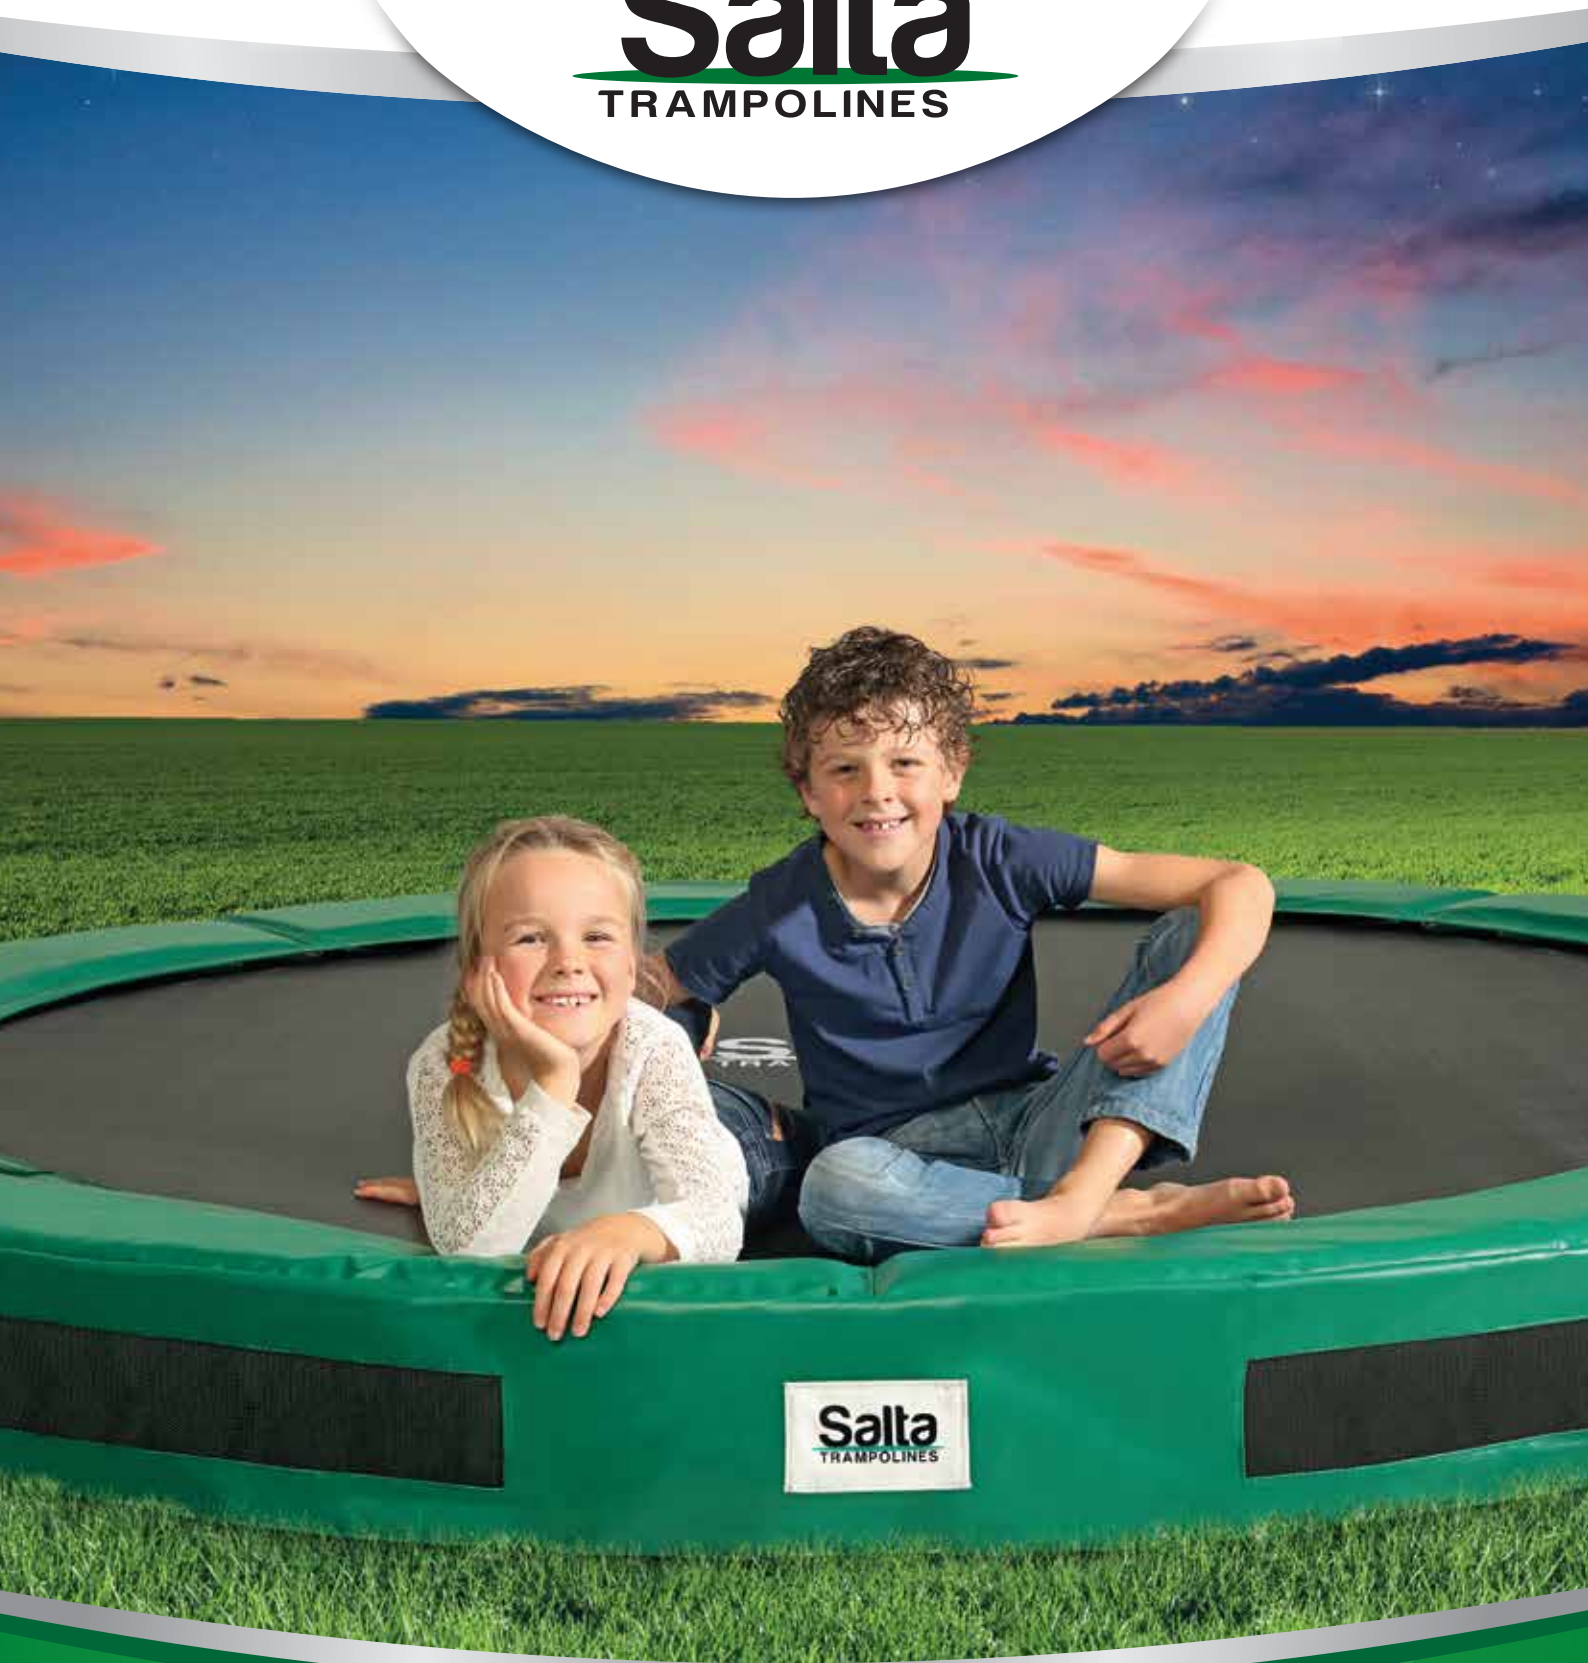

The Salta First Class is available in green and black. Due to the ultimate quality of this trampoline, you are guaranteed years of fun!

TRAMPOLINES

EXCELLENT GROUND

www.saltatrampolines.com

Salta - Excellent Ground

For an aesthetic appearance of your garden there is now the Salta Excellent Ground to integrate your trampoline into your garden. As the name Salta Excellent Ground already says, it has been made with excellent high quality materials. The trampoline is especially developed to reduce the work load of digging the hole in the garden to save time and minimize the size of the hole.

The safety pad has an integrated ventilation system to ensure adequate airflow. This provides an excellent, quiet jumping experience. On the ground, the safety pad is attached with anchors.

The Salta Excellent ground collection is available in round and rectangular trampolines. Both trampolines are available in green and black.

For the round Salta Excellent Ground there is also a safety net available. This safety net has been carefully designed to maintain the elegant appearance and ensures even more safety while jumping.

The upper part of the safety net is provided with a fiberglass ring, which always keeps the safety net in an elegant shape.

ROYAL BASEGROUND

www.saltatrampolines.com

Salta - Royal Baseground

This revolutionary Salta Royal Baseground is situated at the same height with the lawn, making this beautiful trampoline fully integrated in your garden. With the specially developed 'Air Performance System' the airflow is entirely optimized. This functionality is essential for buried trampolines and gives the perfect jumping comfort. This gives the Salta Royal Baseground an exceptional jumping experience and due to this system the trampoline is also very silent.

The exterior of this trampoline is equipped with robust panels that provide a stable foundation. The durable metal frames are double galvanized and provided with a black coating to prevent oxidation. The high-quality thick safety pad is wider on the outside than the standard, which gives it extra protection. The safety pad has also a net-system that needs to be assembled to the trampoline mat. This makes it impossible for children to come into contact with the springs.

All these unique features make this Salta Royal Baseground an absolute top quality trampoline that gives years of jumping pleasure!

The Salta Royal Baseground is optionally available with a safety net to guarantee the utmost safety.

Salta

TRAMPOLINES

Salta - Ladders

The Salta Trampoline ladder is an ideal accessory for your children to climb safely on and off the trampoline. The ladder can be placed on any Salta trampoline and is easy to attach. The ladder has one or two steps and is made of high-quality aluminum and is black powder coated. The ladders are available in 3 different sizes.

Salta - Covers

To protect the Salta trampoline you can order a weather cover. This protects the jumping mat and safety pad against weather conditions. Like all products of the Salta range, the covers are also made of high quality materials. They offer the best balance between safety, quality, durability and price.

Salta - Trampoline pads

Salta Trampoline safety pads can be ordered separately. They are available in three different colors: green, black and pink. All safety pads are made of high quality materials. The specific features, such as the even, thick pad and an extra-long skirt, give the trampoline a professional look.

Salta - Anchoring Set

For an additional stability, an anchoring kit is available. This set contains four steel pins with a butterfly-shaped plate. These can easily be fixed in the ground. The trampoline can then be secured by tightening the tensioning straps on the edge of the trampoline and pulling it through the eye of the anchorage.

Salta - Ultra strong Conical springs

Our trampoline springs are separately available for purchase. The ultra strong gold coloured springs are from top quality that has a conical coil giving them a cone shape for superior bounce and durability. The springs are galvanized before they are formed, ensuring superior rust resistance and longer use.

Salta Trampolines - Website

The official website of Salta Trampolines contains all necessary information for consumer and retail.

Here you can find everything about the advantages of Salta Trampolines, accessories, points of sale, instructions, social media, and many more.
